## FAYORABLE TO CUBA.

Decided Action Taken by the United States Senate.

#### BELLIGERENCY-INDEPENDENCE.

But Six Votes Cast Against the Cuban Reso lution-Intense Excitement in the Upper House of Congress-Patriotic Speeches. Doings of the House-The Cuban Question Not Taken Up For Consideration.

Washington, Feb. 29.-By the overwhelming vote of 64 to 6 the senate yesterday adopted a concurrent resolution favorable to Cuban belligerency and independence. When this result was announced the densely packed galleries broke into long continued applause, which the vice president checked with

The result was reached after a day of fervid speeches, which at times aroused the crowd of spectators to enthusiastic demonstrations. The keen public interest in the subject was evinced by the presence of the largest crowd since congress assembled. The representatives of foreign powers were numerously in attendance, the occupants of the diplomatic gallery, including Ministers Mendonca of Brazil, Hatch of Hawaii, Lazzo-Arriaga of Guatemala, Rengifo of Columbia, and Baron Von Kettler of the German embassy. Senor Dupuy de Lome, the Spanish minister, was not present but two of the attaches of the present, but two of the attaches of the Spanish legation occupied seats with the other diplomats.

The main feature of the debate was the speech of Senator Sherman, chairman of the committee on foreign relations. As a rule the veteran senator from Ohio speaks with reserve and conservatism, so that it was the more surher Governor General Weyler in the most merciless and scathing manner. Mr. Sherman read specific instances in which Weyler was pictured as stripping young girl captives and making them dance before the Spanish troops.

Other speeches were made by Mr. Lindsay of Kentucky, Lodge of Massachusetts, Caffery of Louisiana and Allen of Nebraska. The voting began at 4 o'clock according to agreement. It was simplified by the withdrawal of conflicting amendments, so that only three votes were necessary. The first disposed of the resolution of Mr. White of California limiting the action of congress to a request on the president to grant belligerency. This was tabled, 57 to 12. The amendment of Mr. Allen directing the president to recognize the Cuban republic as independent met like defeat, 52 to 17.

Then came the final vote. The resolution in full is as follows: "Resolved, by the senate (the house of representatives concurring) that in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United

#### HOUSE PROCEEDINGS.

The Cuban Question Not Taken Up, but Heard From.

Washington, Feb. 29.-There was an enthusiastic demonstration in the house yesterday, when Secretary Cox of the senate, shortly before 4 p. m. in the aftof the Cuban resolutions, but the matter did not come up in any other form during the day.

After encountering the unexpected opposition of Mr. Boutelle Thursday the house leaders concluded to postpone taking up the resolutions until the legislative bill was disposed of.

The whole day in the house was spent in the consideration of the legislative appropriation bill and considerable progress was made. An agreement was reached whereby the bill to change the compensation of United States attorneys and marshals from the fee to the salary system is to be offered as an amendment to this bill. An amendment offered by Mr. Tawney (Rep., Minn.) to provide that the members shall have \$100 per month for clerk hire throughout the year, instead of during the sessions only as is now the case, provoked the charge that it was a "salary grab." Mr. Payne (Rep., N, Y.), who was in the chair, ruled it out on a point of order. An attempt was made to overrule the chair, but he was sustained-102 to 43. The provision for senators' clerks was then stricken out with the avowed intention of effecting an "equitable adjustment" with the senate later.

Washington, Feb. 29.—United States Minister Terrell, at Constantinople, has advised Secretary Olney by cable that the inhabitants of the town of Zeitoun and vicinity are suffering from the ravages of smallpox and other diseases and are in want of food. He says that relief expeditions are fitting out as fast as possible, but that progress is necessarily slow and uncertain because the valleys are deep in mud and almost impassable while the mountains are filled with snow and the weather is unusual ly cold.

These packages will not be allowed to be delivered to any representative of a laboratory until a permit is first issued by the postmaster general certifying the right of the institution to receive them.

#### No Longer to Cheat Uncle Sam.

LANSING, Mich., Feb. 29.-An immense tract of land in Antrim, Missaukee, Otsego, Charlevoix, Kaskaskia and Cheboygan counties was restored to market yesterday by an act of the state legislature. These properties, known as the Agricultural college lands, have heretofore been offered for sale at cash payments by reason of which the purchasers in many cases stripped their claims of the valuable timber with which they were covered and allowed the titles to revert to the state. To obviate this, purchasers are now required to pay full value for timber lands before a single tree is allowed to be re-

Crisis Reached in the Kentucky Legislature.

ELECTION CONTESTS ARGUED.

If the House Ousts the Democrats, the Senate Will Do Likewise With the Republicans-Some Startling Disclosures Made in the Joint Session-No Election. Other Kentucky State News.

FRANKFORT, Ky., Feb. 29 .- In the house the Werner-Tompkins contested election case came up yesterday. Speaker Blanford cautioned the members of the house to not let their temper get the better of their judgment. He said the eyes of the world are upon Kentucky's legislature, and if there was any disgraceful proceedings on this case the state would suffer incalculable

It was agreed to grant each side an hour and a half to argue the case, and ex-Speaker Carroll opened, speaking in favor of Tompkins, Democrats, the sitting member.

While the debate on the contest cases was in progress a message came in announcing the governor's veto of the bill enabling sheriffs who forfeited office to be reinstated by filing a bond between now and March 15. This is one of the two bills which have reached the governor up to this time.

Debate on the contest case then proceeded, and Representative Flippin of Monroe spoke in favor of the Republican contestant, Werner.

Further consideration of the contest was cut off by the meeting of the joint assembly at noon.

After the joint session the house adjourned without further argument on the report of the contest committee

The senate did nothing in the morning except to provide for holding an afternoon session, the meaning of which was that if Werner was seated in the house one or more Republicans would be fired from the senate.

The Democrats declare that if their members are turned out similar steps will be taken in the senate and Republican senators unseated

MAIL ADVICES FROM CUBA. FIGHT GROWING HOT. They Differ Greatly From Those Sent Out

by Spanish Censorship.

Tam: A, Fla., Feb. 29.-Yesterday's mail from Cuba brings three letters from and to different sources announcing outrages which are stated in the dispatch given below directed to Senator Morgan in Washington by Rafael Portuondo, Cuban secretary of state. who left for Washington last night:

In Quatao, seven miles from the subarbs of Havana, on Saturday, Feb. 22, at half past 2 the insurgents retired from the town. Three hun red Spanish soldiers immediately entered, murdering noncombatants to the number of 22, among whom were some Spaniards, sick men, boys of 15 years and an old man of 72. The violation of young girls was prevented by the protest of Spanish residents. Fifteen insurgent noncombatants have been taken to Mariando for trial. This news has been confirmed by living witnesses who have just arrived from the scene of the butchery.

The details of the battle at Palo Prieto, between Santa Clara and Placeta, about Feb. 20, have arrived. The result is considered more important than the battles of Peralejo Coliso or Lascacaos. Scrafin Sanchez commanded the Cubans and General Palanco the Spanish. The outcome was the greatest triumph the Cubans ever had, the Spanish loss being 700. General Palanco was severely wounded and his horse is now in the possession of Quintin Bandera. In their light many Spaniards threw themselves into the river.

The Spaniards attacked a small detachment of scouts who soon overtook the main body, and after a short fight the fearful machette charge was made prostrating hundreds of Spaniards beneath their terrific onslaught. The severe Spanish losses are attributed greatly to the panic which ensued when "charge with machette" was ordered.

Great enthusiasm prevails here among the Cubans over the announcement that the resolution to recognize them as belligerents was passed by the senate yesterday afternoon.

#### Riot in Pittsburg.

PITTSBURG, Feb. 29.—The meeting last night of Labor Assembly 300 (window glass workers) broke up in a row and only the opportune arrival of police prevented a serious riot. Simon Burns, the deposed president, started trouble by objecting to certain sections of the minutes relating to his deposition. Master Workman Campbell overruled the objection, when Burns' friends, among them a number of Belgians from Jeannette, who mobbed Campbell and Winters at that place last Wednesday, howled a vigorous protest.

After quiet had been restored a motion was carried, 138 to 14, authorizing the present administration to handle the finances.

About this time a fight in the rear of the hall between sympathizers of the factions diverted attention from business and the assembly was declared adjourned. Then the fun began and pandemonium reigned until the police forced their way through the excited rowd and commenced the work of clearing the hall, which required over a half hour's time. It kept a force of eight or ten officers busy for some time after clearing the streets and restoring

THE REVOLUTIONISTS MASSING.

They Have Organized a Provisional Government and Will Endeavor to Overthrow President Zelaya and His Government-Jealousy Among the Leaders It

Will Not Affect the Building of the Canal. Managua, Nicaragua, Feb. 29.-The revolution is now in full blast, and most of the cities in the country are in arms preparing to either support President Zelaya or to furnish soldiers for the rebels. The leaders of the Leonists are the leaders of the clerical party, and the head of the rebel movement, General Ortiz, is an ex-president.

The revolutionists at Leon have organized a provisional government, with Franchico Baca as president and General Ortiz as chief of the army.

The latest news from the revolutionist camp states that general confusion prevails, owing to jealousy among the leaders. The revolutionists are also in great need of money. The mayors of Malagalpa and Ginolga having evidenced a disposition to join the insurgents, troops have been sent to overawe them.

The conservative party of Grenada has offered the government of General Zelaya \$1,000,000.

The village of Nagarote has been recaptured from the rebels. President Zelaya will take the field against the revolutionists soon.

Five hundred revolutionists undertook to seize a steamer at Momotombo, but did not succeed in doing so. The government immediately raised troops, and now has 2,000 men at Materes.

Not counting the forces of this place and other towns, the main body of the people are with the government. The revolutionists have barely succeeded in raising 800 men. General Oritz has arrived at Leon.

NEW YORK, Feb. 29.-John Mackin, the murderer of his wife and motherin-law, tried to kill himself in the jail in Jersey City yesterday. In searching him at the station Thursday night the police had overlooked a razor which Mackin had concealed somewhere about his person, probably in his boot.

With this weapon he cut his throat and would have soon bled to death had not a jail attendant heard a gurgling sound proceeding from the murderer's cell. Mackin was removed to the hospital. His recovery is doubtful. Morris Connors, the father of Mrs. Mackin, whom Mackin shot when he killed his wife and Mrs. Connors, is very low. The bullet is lodged in the throat of the old man in such away that it is almost impossible to remove it without causing the patient's death.

The shooting was one of the most brutal in the records of the police, for the unfortunate woman was fairly riddled with bullets, three of them having taken effect in her head and two in her hand. The sixth shot, for the revolver was a weapon with six chambers, went wild and sunk into the casing of a door in a saloon, where the woman ran to escape from her pursuer.

NINETY per cent. of the Madison County Republicans recently interviewed declared for McKinley for President. They don't seem to think Governor Bradley is in it.

THE general impression at Frankfort is that there will be no election of a United States Senator at the present session of the Legislature. Well, Kentucky has been getting along with one Senator for over two months now.

REFERRING to Congressman Pugh's candidacy for re-election, the Vanceburg Sun remarks: "The old soldiers and his widows and orphans are especially pleased with his faithful attention to their interests." The Sun has got things considerably mixed.

"THE Democratic party can win this year," said President Cleveland a few days ago to a member of his Cabinet, "if it will declare unequivocally for sound money. No straddle, no compromise will do. On a straightout platform, with a candidate to match, we can carry the country."

It is announced from Frankfort that if Senator Blackburn is defeated for reelection he will take the stump in Kentucky and try to secure a free silver delegation to the National convention. Really, it looks like the Senator has neglected his duties at Washington Citylong enough already.

THE next National convention of the Republican party at St. Louis must modify the platform adopted by the Minneapolis convention by stating, explicitly, that the Republican party is opposed to the free and unlimited coinage of silver. #### HE'S NOT INSANE.

That's What the Bracken People Think of Laughlin, the Murerer-But Little Danger of a Lynching.

Says the Brooksville Review: "The plea of insanity is being urged in extennation of the most horrible crime that ever shocked this community. The friends of Laughlin are loud in their vindication of his fiendishness on that bypothesis. If he were crazy, how could he plan such a plausible story to divert suspicion? And if he is crazy, is not the world better off with such lunatics in Kingdom come? No woman is safe, no home secure when such revolting crimes are permitted to go unavenged. It is a well established scientific truth that a madman never commits rape. Something must be done to shield our women from the uncontrolable lust of such fiends, and to clear our beloved State of such foul disgrace, and it can only be done by a firm and speedy vindication of the law. No man worthy the name will condone the grave offense of Robert Laughlin, and no man who honors womankind and loves the good repute of his county will try to excuse him on such a score.

"Laughlin when he committed his from. bloody outrage was perfectly sane, and should be made an example of. Not at the hands of a mob, for that would only turer of the season, for March 5th, at 8 add another horrible disgrace to the county, but the law should assert itself p. m. and deal out to him the full measure of punishment."

people have come to the conclusion to at 3 o'clock. let the law take its course. The people of Bracken are law abiding, and except while under great excitement would do nothing rash. They fully realize that mob violence now would only be adding another great crime to the one already committed. Laughlin's lynching would be simple murder."

There is comfort in ease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrap of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

#### BAD TIMES?

Well, we should say so. Those Clocks and Watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time, too, if you're unprovided with good Clocks and watches. We have a full supply of both, all accurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece; get the best; get ours.
